THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON 7, ALBERTA

JULY 23, 1970

*Edmonton's annual Klondike Days are here again, from July 23 to August 1. Suddenly Gibson girls, dance hall molls, sleazy moustache-twirling gamblers, and gold-diggers of other kinds are sprouting from behind the stacks and indeed all over the campus.*

## NEW DIRECTOR OF MENTAL RETARDATION CENTRE

ERNEST E. MC COY, Professor of Pediatrics, has been appointed Director of the Centre for the Study of Mental Retardation, effective July 1. The retiring Director, DONALD R. CAMERON, Professor of Educational Psychology, is to be on sabbatical leave during 1970-71, for the purpose of visiting research centres for handicapped children in England and Europe.

Under the joint sponsorship of The University of Alberta and the Canadian Association for the Mentally Retarded, the Centre for the Study of Mental Retardation is an interdisciplinary research institute, with a

focus on biomedical, psychosocial, and educational problems in the field of intellectual subnormality. Administrative and staff offices for the Centre are located mainly on the second floor of the west wing of the Education Building. Biomedical facilities for research are provided by the Faculty of Medicine in the new Clinical Sciences Building. An Advisory Board, chaired by MYER HOROWITZ, Professor and Chairman of Elementary Education, and comprised of representatives from nine interested University departments, is responsible for formulating guidelines for the work of the Centre.

Under the leadership of Dr. McCoy, it is

planned that the program of the Centre will continue to include both basic and applied research, and, as resources permit, exemplary clinical services will be developed. In addition, for graduate students who are seconded by University departments for training, the Centre offers opportunities for experience in an interdisciplinary research organization.

## CONSTRUCTION REPORT

According to the July 15 Progress Report of the Campus Development Office, the Car Park is complete at last. It was taken over by the University July 2, subject to completion of listed deficiencies. The project was begun in May of 1969 to be finished six months later.

The addition to the Physical Education and Recreation Centre was given a preliminary inspection two weeks ago and a list of deficiencies was given to the contractor to finish before a final inspection later this month. The work was begun in February, 1969.

The Central Academic Building is 71 per cent complete and work is progressing well. The walkway to Cameron Library is in place and the walkway to the Engineering Building should be completed by mid-August. Present completion schedule on the building is September 15.

Both the Basic Medical Sciences Building and the Law Centre are slightly behind schedule, though in both cases the contractors are hopeful of making up the time lost.

Basic Medical Sciences is 23 per cent complete and the Law Centre 27 per cent complete, and concrete pouring is in progress on both buildings.

Excavation for the second Car Park is some 80 per cent complete and piling 30 per cent complete. Present construction progress is contingent upon dry weather. The structure is scheduled to be finished in December, with the tennis courts to be completed the following spring as weather permits.

## PAVING AND GROUNDS WORK BEGUN

The 1970-71 contract for paving and grounds work and landscaping has been awarded to Fort Construction Limited.

Work has commenced this week and is scheduled for completion by October 1. Campus locations affected are: the Biological Sciences Building, the Tory turtle, the north

wing of the Cameron Library, the car park and the Printing Services Building, Mackenzie Hall, the area along 116 Street near the General Services Building and along 117 Street north of the Cross Cancer Institute.

## PEOPLE

The Department of Psychology at Laval University will host a conference on "The Theory of Positive Disintegration," August 26 to 30. K. DABROWSKI, Professor of Psychology, The University of Alberta, and author of the theory, will participate.

## NOTICES

### KINETIC ART POSTPONEMENT

The first showing of "Kinetic Art," scheduled for July 14, was cancelled because of technical difficulties in projection. There was a major breakdown in the Students' Union equipment, and while repairs were made in time for the evening's program, there was subsequent damage which had been impossible to detect. The two programs scheduled for July 21 and 22 went ahead as planned, and the third will be shown Tuesday, July 28. Single program tickets are available for \$2.50. A large turnout is expected, and tickets should be obtained ahead of time. For further information, telephone 484-3869.

### TORCHES THEATRE

The Torches Theatre will present two plays over the three week period from August 7 to August 29. Oliver Goldsmith's comedy of manners, "She Stoops to Conquer," will open August 7 and run until August 16. "The Servant of Two Masters" will open on August 20.

The performances will be presented nightly

at 8:45 p.m., excluding Mondays. Tickets, \$2.50 for adults and \$1.50 for students, are available at the box office in Corbett Hall.

### CAUT FEES INCREASED

New rates of CAUT membership fees will go into effect September 1. Fees will be slightly higher (about five per cent) than last year as a result of a general increase in salaries at this University.

The fees are based on a rate of \$1.60 per \$1,000 of the median salary by rank. Full Professors will pay \$2.67 monthly; Associate Professors, \$2; Assistant Professors, \$1.58; and other ranks, \$1.25. These fees are in addition to the monthly AASUA dues of \$1.50.
